PRESS RELEASE

For Immediate Release

COMPLIANCE WITH FDA REGULATIONS AND CERTIFICATIONS

We wish to address recent public announcements from the Food and Drugs Authority (FDA) regarding the imperative for event organizers and e-commerce businesses to collaborate with FDA-licensed Food Service Establishments operating with valid permits. In light of these developments, we affirm to our stakeholders that we possess all requisite certifications and maintain full compliance with pertinent regulatory mandates.

As a leading catering service provider, we maintain current Food Hygiene Permits from the FDA, as stipulated by Section 130 (1) of the Public Health Act 2012 (Act 851). Our operational protocols strictly adhere to rigorous food safety standards, with our facilities subject to routine inspections to ensure alignment with regulatory criteria, including Fire and EPA Permits.

We recognize the significance of consumer trust and confidence in our services. Therefore, we reaffirm our commitment to preserving the trust vested in us by our esteemed stakeholders and pledge to consistently surpass industry benchmarks in both food safety and regulatory adherence.

For further clarification or validation of our certifications, stakeholders are encouraged to reach out to us directly or consult our official website.

We extend our gratitude for your support and confidence.

Sincerely,

PR & QHSE Depts.
